My Research – Access the nation’s property database with the latest property and suburb data

Get Australia’s property database at your fingertips, with unlimited access to the very latest suburb and property data.

How My Research will give you the edge

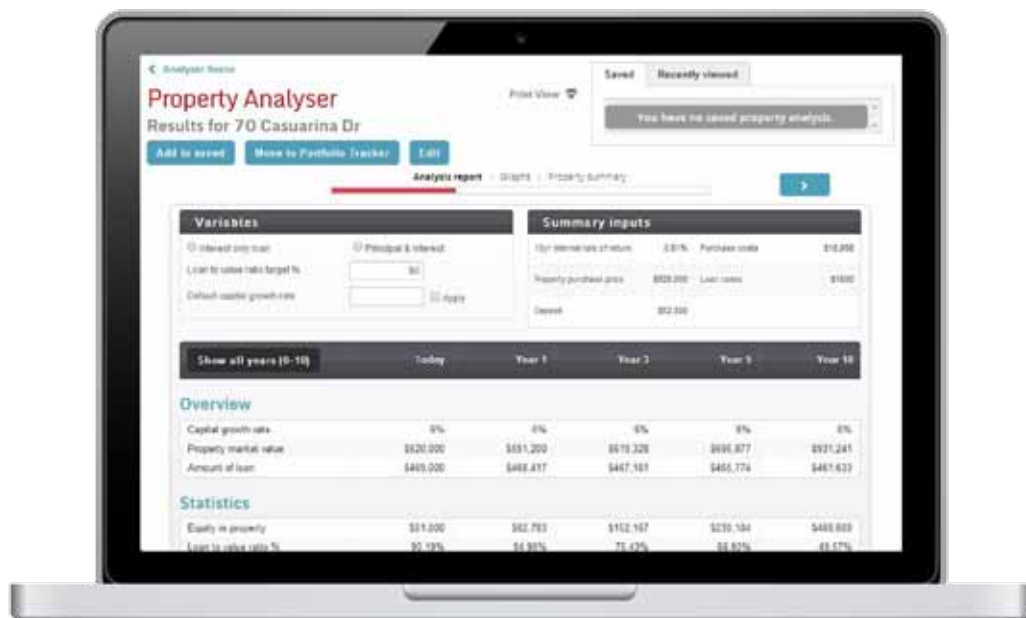

- ✔ Get real estate data on-tap - How long has it been on the market? How much did it sell for? What did they pay for it? Has it been discounted? Zoning, land size, features, demographics, population, average days on market, vacancy rates, rental yields, clearance rates and average discounting data.
- ✔ Real estate photo bank - View interior and exterior photos, floor plans and aerial images.
- ✔ Detailed suburb analysis - Analyse the investment performance trends of every suburb.
- ✔ Map sales and rental results - Radius and street search tools that display results on satellite-integrated Google maps. One click to Google Street view.
- ✔ Minimise your risk - Because you are able to find properties that match your investment strategy, then accurately analyse them with advanced suburb data, you’ll reduce the risks associated with property investing.
- ✔ Latest top suburb performance reports - 33 different top suburb performance reports valued at \$99 each, free to download every month.
- ✔ Find and compare property managers - Access 5,000+ property managers and easily compare all fees and hidden costs and select the best agent for the job whether managing or selling.

Property Analyser – Forecast the financial performance of any property

Determine whether a property will make a sound investment opportunity in a matter of minutes.

How you can accurately forecast a property's financial return

- ✔ Buying on facts not emotion - Fall in love with the numbers, not the property. Eliminate the guesswork and impulse buying some investors fall prey to. Avoid financial disaster and negotiate better.
- ✔ Cash flow and growth forecasted automatically - Income, expenses, pre-tax cash flow and capital growth is estimated for more than 900,000 sales listings automatically. It takes seconds to refine your 10-year forecast.
- ✔ Analyse your property investments - Create 10-year cash flow and capital growth forecasts.
- ✔ Dashboard - Easy to measure portfolio performance at a glance.
- ✔ Analyse short or long term rentals - Whether it's holiday, short stay or long term tenants, you can forecast income and expenses accurately.
- ✔ Know your financial KPI's - Real time analysis of surplus equity, borrowing power, Debt Service Ratio (DSR) and Loan to Value Ratio (LVR). Know when you can afford your next property.
- ✔ 10-year internal rate of return (IRR) - Find out the real cash-on-cash return.

Portfolio Tracker – Manage, track and optimise the ongoing performance of your property portfolio

Manage and grow your portfolio with ease with our ingenious Portfolio Tracker tool. You'll know the right time to reinvest and where your equity lies.

Intuitive features that give you real time insights into your portfolio

- ✔ Real time portfolio tracking - See market values, capital growth, equity, income, expenses and cash flow in real time. It's easy and it's automated.
