

Suburb Performance Reports

Invest Better with Unique Suburb Data

... brings you powerful, easy-to-use software to help you find, analyse, research and track investment property more successfully.

REAL ESTATE INVESTAR'S ALL-IN-ONE PROPERTY INVESTMENT SOLUTION

Pro Membership

Investar Search

Instantly find investment property that matches your strategy and buying rules.

My Valuer

Accurately estimate the value of any residential property and view on the market and sales history for better negotiation.

Property Analyser

Analyse your property investments; create 10-year cash flow and capital growth forecasts to be 100% confident in each decision you make.

Xero

Integrate your property portfolio with Xero and get real-time pulse on your cash flow and investments.

Development Search

Access exclusive, off-the-plan opportunities ahead of the rest of the market.

My Research

Research the investment performance trends of every suburb with the latest data at your fingertips.

Property Analyser

Track your property portfolio data and get access market values, capital growth, income, expenses and cash flow in real time.

Fastest Growth Mining Towns

ABOUT THIS REPORT

This report was produced using live on the market sales and rental listing data.

We have maximised accuracy by only publishing those mining suburb results with high enough data sample sizes.

This data is also calculated at both a dwelling type and bedroom number level. This increases its relevance for investors, but it also means it will vary from commonly published house and unit median sale prices that include all bedrooms as consolidated median results.

This report is designed to identify the mining suburbs where median prices have growth the greatest. Any median change should not be construed to mean that each house or unit in the suburb has increased or decreased in value by this percentage. For example; a developer releasing a large development of new stock well above or well below the median listing price in a suburb, can shift the median price up or down, but that does not mean the values of all other properties have changed accordingly.

You should always conduct additional due diligence on any property and the suburb it is located in to ensure it meets your investment criteria.

Indicator	Legend
	No Change in Rank from previous month
	Rank has moved up in list from previous month
	Rank has moved down in list from previous month
	Rank has moved up sufficiently to be included in this top x list from previous month
	This item had no rank last month: e.g. - there were insufficient listings last month to record a valid statistic - the list item is new
