

Suburb Performance Reports

Invest Better with Unique Suburb Data

... brings you powerful, easy-to-use software to help you find, analyse, research and track investment property more successfully.

REAL ESTATE INVESTAR'S ALL-IN-ONE PROPERTY INVESTMENT SOLUTION

Pro Membership

Investar Search

Instantly find investment property that matches your strategy and buying rules.

My Valuer

Accurately estimate the value of any residential property and view on the market and sales history for better negotiation.

Property Analyser

Analyse your property investments; create 10-year cash flow and capital growth forecasts to be 100% confident in each decision you make.

Xero

Integrate your property portfolio with Xero and get real-time pulse on your cash flow and investments.

Development Search

Access exclusive, off-the-plan opportunities ahead of the rest of the market.

My Research

Research the investment performance trends of every suburb with the latest data at your fingertips.

Property Analyser

Track your property portfolio data and get access market values, capital growth, income, expenses and cash flow in real time.

Biggest Household Income Increase Suburbs

ABOUT THIS REPORT

This report was produced using historical household income data from the 2006 and 2011 Census (Australian Bureau of Statistics).

It shows the percentage increase in weekly average household income in 2011 when compared to 2006 for suburbs for all property types. The report is designed to identify suburbs where household incomes have grown substantially to potentially target property investment opportunities around rental or house price growth. Household income growth in a suburb does not guarantee rental and house price growth and

You should always conduct additional due diligence on any property and the suburb it is located in to ensure it meets your investment criteria.

Indicator	Legend
	No Change in Rank from previous month
	Rank has moved up in list from previous month
	Rank has moved down in list from previous month
	Rank has moved up sufficiently to be included in this top x list from previous month
	This item had no rank last month: e.g. - there were insufficient listings last month to record a valid statistic - the list item is new
